At Mercer Hotels, we believe in the conservation of the heritage and culture of the buildings of all our hotels. The integration of the old and the new is one of our hallmarks.

At EME Catedral Mercer Hotel, we combine historical heritage, contemporary design and a monumental location in the picturesque Santa Cruz District, facing the majestic Cathedral of Seville.

Our 5-star hotel is housed in a historic building from the 16th century, originally composed of 14 typical Andalusian houses. The architectural project was directed by the Spanish architect Juan Pedro Donaire, resulting in a modern hotel with 57 rooms, which combines the Andalusian roots and a modern design.

The hotel rooftop consists of different terraces that offer a panorama over the city, a swimming pool with unique views of the Cathedral and our Terrace-Bar, an emblematic space among Sevillians and a must for guests and visitors.
Nightlife is an essential part of Seville’s identity. And our panoramic bar La Terraza del EME turns your night in Seville into an unforgettable memory. With its wonderful direct views of the Cathedral and the Giralda as well as delicious cocktails and snacks, our rooftop bar offers a historic setting to enjoy as a couple or with friends.

The EME Catedral Mercer Hotel has 57 design rooms and suites. Some of them have a private terrace and unbeatable views to the Seville Cathedral.
